STONEMARK REGULATIONS

- No work shall be started until a sketch, showing in detail and all dimensions to scale, including any inscription or ornamentation, exactly as they are to appear on the finished work, has been submitted in triplicate and approved in writing by the Cemetery authorities.
- A cross or religious symbol must appear on all memorials in a prominent position.
- No inscription may be put on the back or sides of the memorial.
- The location of the gravesite shall be inscribed on the right side of the Memorial, preferably on the wash, in legible figures and letters. On slant face monuments or markers, the location numbers must be inscribed on the lower right hand corner.
- The name of the deed holder must appear on the memorial, for field identification purposes. (it can appear on the lower left side, small print, same as location size, if the deceased name differs from the Deed Holder).

1. Include dimensions, location numbers, and any etchings on the sketch.
2. Monuments may only consist of two pieces.
3. Flush Markers must be smooth on all six sides but **cannot have any Polished Surfaces.**
4. Slant markers must be 2' x 1' x 1'4".
